IEEE Access [®] is a multidisciplinary, applications-oriented, all-electronic archival journal that continuously presents the results of original research or development across all of IEEE's fields of interest. Supported by author publication fees, its hallmarks are a rapid peer review and publication process with open access to all readers.

IEEE Xplore: IEEE Access

Wireless power transfer (WPT), wireless power transmission, wireless energy transmission (WET), or electromagnetic power transfer is the transmission of electrical energy without wires as a physical link. In a wireless power transmission system, a transmitter device, driven by electric power from a power source, generates a time-varying electromagnetic field, which transmits power across space ...

Geophysicist Date Posted: 11/20/18. Job Description: Ninyo & Moore Geotechnical and Environmental Sciences Consultants has an immediate opening for a Geophysicist to perform geophysical surveys, collect and compile data, and write reports for projects involving regional development, site selection, or development of public works projects.

Geophysics Careers - Environmental and Engineering

I propose that a series of ground based stations , using a HAARP type technology (i.e. a ground based station that emits a high frequency or low frequency).. is being used to produce pulses which we see appear on RADAR for a short time. It would appear this high frequency electromagnetic pulse is ...

US Electromagnetic Weapons and Human Rights By Peter Phillips, Lew Brown and Bridget Thornton. This research explores the current capabilities of the US military to use electromagnetic (EMF) devices to harass, intimidate, and kill individuals and the continuing possibilities of violations of human rights by the testing and deployment of these weapons.

Mind Justice - Targeted Individuals

In the recent past, we have discussed three receive diversity schemes – Selection combining, Equal Gain Combining and Maximal Ratio Combining. All the three approaches used the antenna array at the receiver to improve the demodulation performance, albeit with different levels of complexity.
