

architecture and town planning pdf

Urban planning is a technical and political process concerned with the development and design of land use and the built environment, including air, water, and the infrastructure passing into and out of urban areas, such as transportation, communications, and distribution networks and the provision of municipal services to residents and visitors. Urban planning deals with physical layout of ...

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

Jessica Kerr, Library Director commented, "This is a decision to take the next step in a continuing process. Years of research, countless meetings, work of volunteers, consultants, community input, especially listening to those that use and rely on the Library, combined with learning from missteps along the way, has all gone into the Trustee's decision."
