Skeptical Science is a climate alarmist website created by a self-employed cartoonist, John Cook (who apparently pretends to be a Nazi). It is moderated by zealots who ruthlessly censor any and all form of dissent from their alarmist position. This way they can pretend to win arguments, when in reality they have all been refuted. The abuse and censorship does not pertain to simply any dissenting ...

Case Studies and Articles About Principles of Persuasion

I recently acquired two exceptional original copies of "Popular Science" from June of 1958. Almost 60 years ago the dialog about weather warfare was more open. As the power structure began to consider how negatively the public would respond to the decimation caused by climate modification programs ...

Science communication is the public communication of science-related topics to non-experts. This often involves professional scientists (called "outreach" or "popularization"), but has also evolved into a professional field in its own right. It includes science exhibitions, journalism, policy or media production. Science communication also includes communication between scientists (for instance ...
