A factory assessment audits the production capability and performance of a factory against proven quality principles. As such, the key criteria assessed are policies, procedures and records that would indicate the factory's ability to deliver consistent quality management over time, rather than at one given time or only for certain products.

The history of Austria covers the history of Austria and its predecessor states, from the early Stone Age to the present state. The name Ostarrîchi (Austria) has been in use since 996 AD when it was a margravate of the Duchy of Bavaria and from 1156 an independent duchy (later archduchy) of the Holy Roman Empire of the German Nation (Heiliges Rîmisches Reich 962-1806).

Weather forecasting is the application of science and technology to predict the conditions of the atmosphere for a given location and time. People have attempted to predict the weather informally for millennia and formally since the 19th century. Weather forecasts are made by collecting quantitative data about the current state of the atmosphere at a given place and using meteorology to project ...
