Universal Design for Learning (UDL) is a research-based set of principles to guide the design of learning environments that are accessible and effective for all.

CAST: Home

For years, the field of reading education has been engaged in thinking about best practices. Explicit instruction in vocabulary, rereading and using digital textbooks to motivate children's reading are among some of these updated best practices.

Best Practices in Reading: A 21st Century Skill Update

In incremental learning, the student usually remembers 95% of his or her top priority material. That knowledge is relatively stable and lasts in student's memory as long as the process continues, and well beyond.

SuperMemo: Incremental learning - Super Memory: Forget

Title Image based in situ sequencing as a basis for learning tissue morphology Biography Carolina Wählby, Professor at the Department of Information Technology, Uppsala University is head of the Centre for Image Analysis at Uppsala University and focusing on digital image processing and analysis in the interface between biomedicine, microscopy, and computer science.

designs with your social network.

AutoCAD: A Problem-Solving Approach: 2013 and Beyond

Two large forces are driving fresh interest in the way people learn and why they learn. The first force is the rise of the internet and its disruptive potential for education, both for the formal purpose of gaining extra training and credentials and for the informal purpose of learning new things in hope of personal life enrichment.
