The brain is an organ that serves as the center of the nervous system in all vertebrate and most invertebrate animals. The brain is located in the head, usually close to the sensory organs for senses such as vision. The brain is the most complex organ in a vertebrate's body. In a human, the cerebral cortex contains approximately 10–20 billion neurons, and the estimated number of neurons in ...

Brain training (also called cognitive training) is a program of regular mental activities purported to maintain or improve one's cognitive abilities. It reflects a hypothesis that cognitive abilities can be maintained or improved by exercising the brain, analogous to the way physical fitness is improved by exercising the body.. Although there is strong evidence that aspects of brain structure ...

Although genomewide RNA expression analysis has become a routine tool in biomedical research, extracting biological insight from such information remains a major challenge. Here, we describe a powerful analytical method called Gene Set Enrichment Analysis (GSEA) for interpreting gene expression data. The method derives its power by focusing on gene sets, that is, groups of genes that share ...

Auto Dealer's Training. All auto dealers (under the age of 65) are required to attend this training in order to renew their license. The law requires that the person whose name is on your auto dealer's license must attend this training, although it would be helpful for anyone working in independent auto sales to attend.

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.

In 2000, fishermen reported the appearance of deformed reproductive organs in whitefish (*Coregonus* spp.) from Lake Thun, Switzerland. Despite intensive investigations, the causes of these abnormalities remain unknown. Using gene expression profiling, we sought to identify candidate genes and physiological processes possibly associated with the observed gonadal deformations, in order to gain ...

1. Adversity. In 2013, the United States reached an educational milestone. For the first time, a majority of the country's public school students – 51 percent of them, to be precise – fell below the federal government's threshold for being "low income," meaning they were eligible for a free or subsidized school lunch.

As a follow-up to Tuesday's post about the majority-minority public schools in Oslo, the following brief account reports the latest statistics on the cultural enrichment of schools in Austria. Vienna is the most fully enriched location, and seems to be in roughly the same situation as Oslo. Many thanks to Hermes for the translation from Unzensuriert.at:

Literature has been a subject of study in many countries at a secondary or tertiary level, but until recently has not been given much emphasis in the EFL/ESL classroom.

Teaching materials: using literature in the EFL/ ESL

This study found that young 4-, 5- and 6-year-olds who engaged in more conversation at home had more brain activity and verbal aptitude while they were listening to a story and processing language.
