My desperation to grow my breasts turned into an obsession, where I'd spend every day and night thinking about why some women have big breasts and some women have small breasts (like you and me).

Boost Your Bust - How To Make Your Breasts Grow Naturally

The breast is one of two prominences located on the upper ventral region of the torso of primates. In females, it serves as the mammary gland, which produces and secretes milk to feed infants. Both females and males develop breasts from the same embryological tissues. At puberty, estrogens, in conjunction with growth hormone, cause breast development in female humans and to a much lesser extent ...
