The Easy Part: Get to the Point. Your first task is to get to the point. Before you generate an outline or your first draft, be sure you know your purpose precisely. Make sure you can state it in a single simple sentence. A common pitfall is to choose topics which are too broad; remember that your time is limited. This can be challenging, but if you adopt the practice of determining your purpose before writing anything else, you will find this to be the easy part.

Abstract: Neural sequence-to-sequence models have provided a viable new approach for abstractive text

summarization (meaning they are not restricted to simply selecting and rearranging passages from the original text). However, these models have two shortcomings: they are liable to reproduce factual details inaccurately, and they tend to repeat themselves.
