About SJC GIS: The San Joaquin County Community Development Department established the Geographic Information Systems (GIS) group in 1996. GIS is responsible for maintaining much of the County's map data in electronic form, as well as performing map-based analysis and providing support for other County departments.

Handheld Devices in the Classroom. What's the difference between Palms, Handsprings, and other hand held devices?

### **Hand-Held Devices in the Classroom**

A geographic information system (GIS) is a system designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data. GIS applications are tools that allow users to create interactive queries (user-created searches), analyze spatial information, edit data in maps, and present the results of all these operations.
