Book Review: Global networks, linked cities | Request PDF

Global Networks, Linked Cities collects research, theory, and case studies examining cities in this context by Sassen and 19 other social scientists, focusing particularly on the recent explosive growth in areas formerly--now inaccurately--called the Third World.

Global Networks, Linked Cities - Kindle edition by Saskia

First, they look at how information flows have bound global cities together in networks, creating a global city web whose constituent cities become "global" through the networks they participate in. Second, they investigate emerging global cities in the developing world--Sao Paulo, Shanghai, Hong Kong, Mexico City, Beirut, the Dubai-Iran corridor, and Buenos Aires.

Global Networks, Linked Cities - dl.acm.org

Global cities in the global corporate network 2301 | first focus on a subset of this network, namely, the transnational elite relations that knit together global cities.

(PDF) Global Cities in the Global Corporate Network

such cities become far more closely linked to the global economy than to their regional or national economies and this can have harsh consequences locally, pushing out firms and people that are not within the internationalized sector.

GLOBALIZATION AND CITIES Locating cities on global circuits

This study seeks to understand the implications of the global network of cities for the development of peripheral cities in peripheral regions (D cities) such as Lagos through the growth and expansion of their firms, by comparing the geography of this network with the geography of Lagos firms' global interactions.
