Feminism and Ecological Communities: An Ethic of Flourishing by Chris Cuomo. New York: Routledge, 1998, 170 pp., \$20.00 paper. The Good-Natured Feminist by Catriona Sandilands is quintessential reading for anyone who usually thinks of ecofeminism as attempting to link "woman" (often equated with "mothering") and "nature" in an essentializing way. In the first of the book's two parts, Sandilands discusses early ecofeminist tendencies to prioritize such ontological claims over political ones.

Book Review: Catriona Sandilands, *The Good-Natured*

The Good-Natured Feminist fills two main gaps in contemporary ecofeminist scholarship: questions raised by feminist postmodernists around identity, gender, and subjectivity, and questions about the relevance of ecofeminism to democracy. Sandilands's contribution is to offer an understanding of ecofeminism which reveals its potential and promise to answer important questions of feminists, postmodernists, and democratic theorists about the place of "nature" in political representation.
