Demographic economics or population economics is the application of economic analysis to demography, the study of human populations, including size, growth, density, distribution, and vital statistics.. Aspects. Aspects of the subject include marriage and fertility; the family; divorce; morbidity and life expectancy/mortality; dependency ratios; migration; population growth

## **Demographic economics - Wikipedia**

New institutional economics (NIE) is an economic perspective that attempts to extend economics by focusing on the social and legal norms and rules (which are institutions) that underlie economic activity and with analysis beyond earlier institutional economics and neoclassical economics. It can be seen as a broadening step to include aspects excluded in neoclassical economics.
