1. Introduction. Despite significant attention given to animal diseases in the last half-century, our understanding of disease processes, and how to manage them at the livestockâ€™wildlife interface, remains limited (Rhyan and Spraker, 2010). The increasing role of wildlife in the emergence of livestock and human diseases is due to multiple changes occurring within wildlife, livestock, and ...

Innovation is a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business models that are made ...

The Georgia School of Technology opened in the fall of 1888 with two buildings. One building (now Tech Tower, an administrative headquarters) had classrooms to teach students; The second building featured a shop and had a foundry, forge, boiler room, and engine room. It was designed for students to work and produce goods to sell and fund the school.
