Students cut and paste pictures to sort. Pictures are either living or nonliving.

Living vs. Nonliving Sort Worksheet by Julie Aiken | TpT

Coastal Ecologist: A scientist who studies coastal processes, plant, and animals, and their interactions with the living and nonliving environment.

Abiotic (jst): A scientist who studies societies and stream

In biology and ecology, abiotic components or abiotic factors are non-living chemical and physical parts of the environment that affect living organisms and the functioning of ecosystems. Abiotic factors and the phenomena associated with them underpin all biology. Abiotic components include physical conditions and non-living resources that affect living organisms in terms of growth, maintenance ...

Several organisms are capable of rolling locomotion; however, true wheels and propellers “despite their utility in human vehicles” do not appear to play a significant role in the movement of living things (with the exception of certain flagella, which function like corkscrews). Biologists have expounded on the reasons for this apparent absence of biological wheels, and wheeled creatures have ...
