Roads managed by Highways England - GOV.UK

About. Asia and the Pacific is the most disaster prone region in the world. A person living in the region is almost twice as likely to be affected by a disaster as a person living in Africa, almost six times as likely compared with Latin America and the Caribbean, and 30 times more likely than a person living in North America or Europe.

Road traffic safety refers to the methods and measures used to prevent road users from being killed or seriously injured. Typical road users include: pedestrians, cyclists, motorists, vehicle passengers, horse-riders and passengers of on-road public transport (mainly buses and trams). Best-practices in modern road safety strategy: The basic strategy of a Safe System approach is to ensure that ...
