

tourism and climate change pdf

Tourists spend more than \$200 billion dollars in developing countries every year, placing tourism in the top five export income-earning categories for 83 percent of developing countries.

Sustainable Tourism | U.S. Agency for International

Climate change is a change in the statistical distribution of weather patterns when that change lasts for an extended period of time (i.e., decades to millions of years). Climate change may refer to a change in average weather conditions, or in the time variation of weather within the context of longer-term average conditions, defined by the World Meteorological Organization as a 30 years or ...

Climate Change The Fiji Islands Response - UNFCCC

This article describes the economic impacts of climate change. Given the inherent nature of economic forecasting, which involves significant degrees of uncertainty, estimates of the results of global warming over the 21st century have varied widely. Many analyses, such as that of the Stern Review presented to the British Government, have predicted reductions by several percent of world gross ...
