Improper handling of hazardous materials can result in adverse effects to human and animal health as well as the environment. Failure to respond quickly to an unintended incident can turn a small incident into a larger one, increasing the impact of the event on the environment - not to mention the risk of a violation if not handled properly. ...

The BAUER B-KOOL high-pressure refrigeration dryer cools the compressed air, causing more condensate to form so that the filter cartridge does not need as much water supply. This can extend the service life of the filter cartridge by up to 11 times. This is a clever approach to cutting costs and protecting the environment.
