Frequently asked questions area available to help the public better understand the climate system and how
climate patterns in far off places affect our weather patterns.

CPC - Climate Weather Linkage: El Niño Southern Oscillation

Bureau of Meteorology web homepage provides the Australian community with access to weather forecasts,
severe weather warnings, observations, flood information, marine and high seas forecasts and climate
information. Products include weather charts, satellite photos, radar pictures and climate maps. The Bureau
also has responsibility for compiling and providing comprehensive water information ...

Australia's official weather - Bureau of Meteorology

Current Extreme Weather & Climate Change. Climate Communication hosted a press conference featuring
our expert reviewers discussing the connections between extreme weather and climate change.

Climate Communication | Overview

Some meteorological processes are too small-scale or too complex to be explicitly included in numerical
weather prediction models. Parameterization is a procedure for representing these processes by relating
them to variables on the scales that the model resolves. For example, the gridboxes in weather and climate
models have sides that are between 5 kilometers (3 mi) and 300 kilometers (200 mi) ...

Numerical weather prediction - Wikipedia

The climate of the planet Mars has been a topic of scientific curiosity for centuries, in part because it is the
only terrestrial planet whose surface can be directly observed in detail from the Earth with help from a
telescope.. Although Mars is smaller than the Earth, at 11% of Earth's mass, and 50% farther from the Sun
than the Earth, its climate has important similarities, such as the ...
