Summative assessment (or summative evaluation) refers to the assessment of participants where the focus is on the outcome of a program. This contrasts with formative assessment, which summarizes the participants' development at a particular time. Summative assessment is widely taught in educational programs in the United States. [citation needed] Scriven claims that while all assessment ...

Accessibility for all students is a core principle of Smarter Balanced. For students with special needs or those learning English, Smarter Balanced assessments have been designed so that any student can participate and demonstrate what they know in a way that can be accurately measured.

Smarter Balanced: More than Just a Test

A criterion-referenced test is a style of test which uses test scores to generate a statement about the behavior that can be expected of a person with that score. Most tests and quizzes that are written by school teachers can be considered criterion-referenced tests. In this case, the objective is simply to see whether the student has learned the material.
