Medieval Latin was the form of Latin used in Roman Catholic Western Europe during the Middle Ages. In this region it served as the primary written language, though local languages were also written to varying degrees. Latin functioned as the main medium of scholarly exchange, as the liturgical language of the Church, and as the working language of science, literature, law, and administration.

Etymology. In the early 20th century, it was generally believed the name came from the Latin *movere*, ("to move"), though a derivation from the French *mot* ("word", or "phrase"), had also been suggested. The Medieval Latin for "motet" is *motectum*, and the Italian *mottetto* was also used. If the word is from Latin, the name describes the movement of the different voices against one another.

Puritan history, as is taught in America today, usually focuses in on the Puritans during the 1600's as they were arriving in America.
