Sun As A Star Overview The unit opens with a brainstorming session in which participants share their prior knowledge about the Sun and make the first entries in their Science Journals. In Activity 2, participants are introduced to the idea that light is our means of studying the Sun.

Sun As A Star

Where does the sun go at night? The earth is a sphere that revolves around the sun, along with the seven other planets of the solar system. One revolution of the earth around the sun takes one calendar year. While it is going around the sun, the earth also spins on its own axis. Each "spin" takes 24 hours, that is, a day and a night.
